SEMS Report:

When choosing interests, I notice that there is no search. What I mean by that is that, one has to scroll down to choose the interests (unless you do Ctrl-F). Hence, if the topics you want are at the bottom of the page, it takes quite a while to scroll down to find your topic.

Then, when submitting a text, it is unclear how long the abstract needs to be.

The bidding phase was straight forward.

In the review phase, there is no indication of how long the review and comment have to be.
